RECORDS CONTROL SCHEDULE

1. GENERAL. Part I of RCS 005-1 provides the authority authorizing the prompt and orderly disposition of records (primarily correspondence files) created and maintained in Office of Information & Technology (OI&T) Central Office and field facilities. These records reflect the day-to-day administrative matters related to a particular office within OI&T. Disposition authorities are authorized and mandated by the National Archives and Records Administration (NARA) in the General Records Schedule (GRS) for use by all government agencies.

2. POLICY

a. This schedule is mandatory and constitutes the sole authority for the disposal of Subject/Functional Records (Except Fiscal or Finance Records) created by OI&T and OI&T field facilities.

b. The procedures governing the transfer of records to a Federal Records Center (FRC) are set forth in VA Handbook 6300.1, Records Management Procedures.

(1) Records shall be retired from facility space to FRC as soon as eligible, but only if considered appropriate and transfer costs do not exceed the expense of retaining them in agency space.

(2) Records retired to the FRC must have a remaining retention period of 3 years or more before they will be accepted.

c. Where destruction is authorized, records will normally be destroyed immediately after expiration of the retention periods. Under no circumstances will destruction be accomplished prior to the expiration of retention periods.

3. DEFINITIONS

a. Authority. The authorization obtained only from the Archivist of the United States for the disposal of records.

b. Destroy. Physical destruction of records.

c. Disposition. The action taken with regard to records following their appraisal. The actions include transfer to a records center for storage, transfer to an archival agency, and donation to an eligible repository, image reproduction, or destruction. The term includes but is not synonymous with disposal.

d. Retention Period. The period of time a particular record (normally a series) is to be stored.

4. INSTRUCTIONS FOR USE

a. Subject/Functional Records are arranged to provide an item number, title and description, disposition instructions, and the NARA authority to dispose of the record:

(1) Item Number. Identification of a specific record or file.

(2) Title and Description. This column identifies the types of records within a record series. The term "or equivalent", when used identifies predecessor records, successor records, or records used in lieu thereof, provided they meet the following conditions:

(a) The records were used for the same purpose and in the same manner as the record appearing in the records control schedule; and,

(b) The kind or type of information is the same as the record described in the record control schedule.

OI&T RCS 005-1

(3) Disposition. This column lists the action to be taken on records.

(4) Authority. This column represents the statutory requirements locating the specific authority for each item.

5. PURPOSE AND INTRODUCTION FOR USE

a. Title 44, Section 3301, of the United States (U.S.) Code defines records as all books, papers, maps, photographs, machine-readable materials or other documentary materials, regardless of the physical form or characteristics, made or received by an agency of the U.S. Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies decisions, procedures, operations, or other activities of the government or because of the information value of data in them. Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference and stocks of publications and of processed documents are not included. These items are referred to as non record materials.

b. The (OI&T) Records Control Schedule (RCS) 005-1 is the main authority for the retention disposition of OI&T records. Other record schedules such as the National Archives and Records Administration (NARA) General Records Schedules (GRS) are appropriate for use if warranted. GRS's provide disposal authorization for temporary administrative records common to several or all agencies of the Federal government. They include records relating to civilian personnel, fiscal accounting, procurement, communications, printing, and other common functions, and certain non textual records.

c. RCS 005-1 is designed to identify each record series, to provide a brief description and state the retention and disposition requirement for each record series, and to include NARA authorities or the GRS authorities, whichever is appropriate for the record series.

d. Requests for deviations from RCS 005-1 retention and disposition requirements are to be submitted to the Director, Records Management Service (005R1B). The RCS 005-1 is used by OI&T Central Office and field facilities.

6. RECORDS MANAGEMENT RESPONSIBILITIES

a. The Records Management Service (RMS) is responsible for the development of policies and procedures for effective and efficient records management throughout OI&T. In addition, RMS acts as the liaison between OI&T and NARA on issues that pertain to records management practices and procedures.

b. Field records officers are responsible for records management activities at their facilities

c. Program officials are responsible for creating, maintaining, protecting, and disposing of records in their program area in accordance with NARA regulations and VA policy.

d. All OI&T employees are responsible to ensure records are created, maintained, protected, and disposed of in accordance with NARA regulations and VA policies and procedures.

7. DISPOSITION OF RECORDS

a. The RCS 005-1 contains retention and disposition requirements for OI&T records which have been authorized by NARA or have been assigned a GRS disposal authority. Record disposition refers to the transfer of records to a records storage facility, transfer of permanent records to the National Archives, the destruction of records, and other appropriate actions to dispose of records. Unless retrieved, records transferred to a storage facility will be destroyed after expiration of their retention requirements. However, the transferring facility will be notified prior to the destruction of the records. The transferring facility will be notified by the storage facility that the records will become eligible for destruction in the near future. If the records are to be retained beyond their destruction date, the transferring facility must notify the storage facility that the records are to be retained beyond

the destruction date. If the storage facility is not notified, the records will be destroyed after their retention periods have expired.

b. Materials that meet the Freedom of Information Act and Privacy Act criteria have been identified in this records control schedule. Records Officers are required to review all requests for records disposition originating in their organizations to ensure the Freedom of Information Act and Privacy Act provisions are not violated. Material that falls under the purview of the Freedom of Information Act and the Privacy Act is to be destroyed by shredding. Reference VA Directive 6371 and VA Handbook 6500.1 for detailed particulars.

8. RECORDS OVER 30 YEARS OLD

a. Permanent and unscheduled records over 30 years old in OI&T custody must be identified and reported through the Records Management Service to NARA. Permanent (archival) records are defined as records that have been appraised by NARA to have sufficient historical value or other value to warrant permanent preservation at the National Archives.

b. Records that have not been appraised and unscheduled records are records that have not been evaluated to determine their record retention value, i.e., retention and disposition standards. Records authorized for disposition by NARA's General Records Schedules must be documented on an approved SF 115, Request for Records Disposition Authority. Records authorized for transferral to a record storage facility are excluded from this reporting requirement.

9. DAMAGE TO, ALIENATION AND UNAUTHORIZED DESTRUCTION OF RECORDS

a. OI&T records shall not be disposed of without the proper authorization to do so. Federal law prohibits unauthorized destruction, alienation, or mutilation of Federal records. The penalty for such acts is a \$2,000 fine, 3 years in prison, or both, pursuant to Title 18 United States Code 2071.

b. OI&T personnel are to take measures to ensure that records are not improperly disposed of. Records are not to be removed from OI&T custody or destroyed without regard to the requirements of this RCS, GRS's, or other approved NARA records schedule. When records are improperly disposed of, NARA regulations and VA policy require the submission of a report to NARA. The report should include the record description, volume, date of incident, etc.

c. Specific reporting requirements are contained in NARA regulations, Title 36, Code of Federal Regulations, Part 1228, Disposition of Federal Records, and VA Handbook 6300.1, Chapter 6, Records Disposition Program.

10. VITAL RECORDS

Vital records are defined as essential records needed to maintain the continuity of Federal government activities during and following a national emergency or a technological or natural disaster and to protect the rights and interests of VA beneficiaries and employees.

11. PERSONAL PAPERS

Personal papers consist of documents that relate only to an individual's personal affairs and do not affect the conduct of government business. Examples of personal papers are diaries, journals or other personal notes that are not created in the process of transacting government business.

12. ELECTRONIC RECORDS

Regardless of the record medium, hardcopy or electronic, those records must be appraised to determine their record retention value and scheduled with the National Archives and Records Administration to obtain an authorized disposition.

13. TERMINATION OF OFFICE/SERVICE AND DEACTIVATION OF FIELD FACILITY

a. Specific records management procedures are to be followed when terminating an office/service or deactivating a field facility. The procedures are contained in VA Handbook 6300.1. It is important that these procedures be adhered to prevent the loss or unauthorized destruction of OI&T records.

b. Once it has been determined to abolish an office/service or to deactivate a field facility, the records officer is to be consulted so that certain measures are taken to prevent the premature destruction of records. An evaluation is to be conducted to determine those records that are eligible for immediate destruction, identification of records that are to be transferred to the successor office/service or facility, identification of records that are eligible for transfer to a records storage facility, and identification of records deemed to be of permanent value for offering to the National Archives. Records are not to be disposed of without proper authorization to do so.

14. DEPARTMENT OF VETERANS AFFAIRS (VA) HANDBOOKS

a. VA Handbook 6300.1 is the document that's used to establish the procedures for implementation of the VA records management program as stipulated in VA Directive 6300. VA Handbook 6300.2 establishes VA procedures for management of the Vital Records Program which is an integral component of VA's Emergency Preparedness Plan.
